WCSD IT

Guest Wireless Internet Access

STEP 1: Create an account

Go To

guest.washk12.org

Follow the prompts and set up an account

IMPORTANT TIP: Your account will be persistent, so ordinarily you shouldn't need to recreate the account again. However, WCSD reserves the right to remove accounts or fully terminate public access at any time for any reason.

STEP 2: Connect!

Connect to

WCSDaccess

You should receive a text message containing your username and password. You will need those credentials to sign in to the wireless system.

PRO TIP: The WCSDaccess network is an 802.1x Enterprise network
Using the following: WPA2, AES, PEAP, and MSCHAPv2
