School Report card:

We don't do letter grades anymore - show where at in each category

Achievement - 43.5 average

Math, struggling - focusing - below state and district average

Science -

Language Arts -

Growth percentage is high at : 66.4 % English, 65.8 % Math, 66.0% Science

We are on a growth improvement trend! (Rise data results)

Struggling areas:

- English Language Learners - critical area of need - not just a problem for ESL teachers but all teachers across the board. ELL students are in all the classes. Area of growth.

Mr. Gwilliam asked - In what ways can we help with this?

- We need paras desperately
- Training gap - need basic reading training

- Lack of parent support
- Mrs. Candland suggested we create a program for older people to come in and read with students like they do in elementary schools. Suggested sending out a reading form to the community. Identifying what specific needs we have - children - need consistency- train them, 3 classes 45 kids - badges - could be as simple as reading Achieve 3,000 Articles with them. Kristin Pinter, Terri Howell and Mrs. Candland will coordinate and implement this effort..
- Mr. Gwilliam - How do we communicate with Spanish speaking parents? We had a special back to school night for Spanish Speaking parents . Mrs. Pinter offered English Classes for parents... many signed up... Students need more support at home... 100 in attendance.
- Much room for improvement !!! parent volunteer

Next Meeting for the Community Council will be Feb 26,2024. At this meeting we will discuss goals for next year, and budget needs.
